Iran’s date harvest, packed for world buyers

Premium Iranian Dates

FARVAND sources, grades and packs Iran’s finest export date varieties — from soft Mazafati to dry Zahedi — for importers, wholesalers and distributors who buy by specification.

[IMPORTERS · WHOLESALERS · DISTRIBUTORS]

01 — WHO WE ARE

Our Story

FARVAND is an Iranian date exporter built around one promise: the carton that arrives should be the carton that was promised.

FARVAND began in [YEAR] in [CITY], [PROVINCE] — inside the belt where Iranian dates are grown. What started as [ORIGIN OF THE BUSINESS] grew into a focused export operation: [PRODUCER / PACKER / EXPORTER] of Iranian dates for business buyers who buy by specification, not by photograph.

Today we work with [GROWER PARTNERS / OWNED ORCHARDS] across Kerman, Fars, Hormozgan, Sistan and Khuzestan to bring together the varieties buyers reorder — and we pack them to the standard each market expects.

Our own operation covers [SCOPE: SOURCING / PROCESSING / PACKING / SHIPPING]. Everything outside that — [LAB TESTING, CERTIFICATION, FREIGHT] — is handled by named partners we will name on request.

WHAT WE STAND FOR

01 **Traceable sourcing**

Every lot is tied to a grower, a region and a harvest window, so a claim can be checked rather than trusted.

02 **Graded to order**

Size, count and moisture are agreed before packing, and the same specification is applied to every carton.

03 **Paperwork that clears**

Invoices, packing lists and phytosanitary documentation are prepared with the shipment, not after it.

02 — PRODUCT PORTFOLIO

The FARVAND Range

Twelve export varieties from Iran's date belt — from Bam and Kerman to Fars, Hormozgan, Sistan and Khuzestan. Each one has its own colour, texture and job on the shelf.

Mazafati
SOFT
BAM · KERMAN

Dark, glossy and thin-skinned — the benchmark soft date of Iran and the variety buyers reorder most.

Medjoul
SOFT
BAM & SARAVAN · KERMAN / SISTAN

Large, caramel-brown and very high in sugar. The premium gifting date of the range.

Zahedi
SEMI-DRY
DASHTESTAN & KAZERUN · FARS

Golden, wrinkled and firm with a long shelf life. The safe choice for long-haul shipping.

Kimri
SOFT
BAM · KERMAN

Small, dark and intensely sweet. Packs densely, so carton cost per kilo stays competitive.

Shahani
SEMI-SOFT
JIROFT & KAHNOJ · KERMAN

Mid-size amber fruit with a delicate, tender skin and a clean, mild sweetness.

Najafi
SOFT
SARAVAN & BAM · SISTAN / KERMAN

Round, very dark and soft. A traditional cultivar with a loyal following at home and abroad.

Lasht
SEMI-DRY
DASHTESTAN · FARS

Brown, wrinkled and firm — the workhorse of Iranian cooking and industrial processing.

Morki
SEMI-DRY
KAZERUN & DASHTESTAN · FARS

Light brown and moderately dry, with a firm bite that holds well in a mixed gift box.

Deglet en-Nour
SEMI-DRY
ABADAN & KHORRAMSHAHR · KHUZESTAN

Pale amber with a mild, honeyed flavour and a light skin that eats easily.

Barhi
SOFT
SARAVAN · SISTAN & BALUCHESTAN

Round, soft and mild, with low fibre — a straightforward snacking date.

Harani
SOFT
JAHROM · FARS

Soft, amber and very sweet. A premium soft date sold in smaller, higher-value packs.

Piarom
SEMI-DRY
HAJIABAD · HORMOZGAN

Small, dark, dry and chewy — the date most often described as the chocolate date.

Cultivar traits and growing regions are typical values that vary with season, irrigation and grade. Every FARVAND quotation states the confirmed origin of the lot being offered.

03 — FLAGSHIP VARIETY

Mazafati

The most requested Iranian date in the world. Dark, glossy, thin-skinned and naturally sweet — and the variety our buyers reorder most.

HARVEST REGION

Bam

Kerman — the home of Mazafati

AT A GLANCE

VARIETY	**Mazafati**
TYPE	**Soft (semi-moist)**
COLOUR	**Dark brown to near-black**
SKIN	**Thin and glossy**
CHARACTER	**Naturally sweet, caramel-like**

SPECIFICATION

SPECIFICATION	STATUS	
Grade / size	[SIZE OR COUNT PER KG]	To be supplied
Moisture	[MOISTURE % — ONLY IF LAB VERIFIED]	To be supplied
Packing	[RETAIL PACK + BULK CARTON]	To be supplied
Shelf life	[SHELF LIFE IN MONTHS]	To be supplied

WHY BUYERS CHOOSE IT

- Consistent grading and count — the specification is agreed before packing, not after.
- The strongest repeat-demand variety in India, the Gulf and East Africa.
- Dense, dark fruit that keeps its retail look through the supply chain.

04 — PREMIUM VARIETY

Medjoul

Large, amber-brown and very high in sugar. Medjoul is the gifting date of the range — larger fruit, higher value per kilo, tighter margins.

HARVEST REGION

Bam & Saravan

Kerman / Sistan & Baluchestan

AT A GLANCE

VARIETY	**Medjoul (Medjool)**
TYPE	**Soft**
COLOUR	**Amber to deep brown**
SKIN	**Thick and wrinkled**
CHARACTER	**Very sweet, caramel and fig-like**

SPECIFICATION

SPECIFICATION	STATUS	
Grade / size	[COUNT PER KG: LARGE / EXTRA LARGE]	To be supplied
Moisture	[MOISTURE % — ONLY IF LAB VERIFIED]	To be supplied
Packing	[TRAY / CLAMSHELL / GIFT BOX]	To be supplied
Shelf life	[SHELF LIFE IN MONTHS]	To be supplied

WHY BUYERS CHOOSE IT

- The highest value per kilo in the range — priced for gifting and seasonal packs.
- Large, uniform fruit that presents well in clamshell and gift-box formats.
- Sorted by count so premium retail shelves get an even grade, not a mixed one.

05 — TWO MORE STAPLES

Zahedi & Kimri

One dry, one soft — and both in constant demand. Zahedi travels; Kimri sells by volume. Buyers often take them in the same order.

Zahedi

SEMI-DRY

HARVEST REGION
Dashtestan & Kazerun
Fars

Golden, wrinkled and firm, with a long shelf life and a nut-like bite. Zahedi is the workhorse for long-haul shipping and industrial buyers.

Shelf life	[SHELF LIFE IN MONTHS]	To be supplied

Kimri

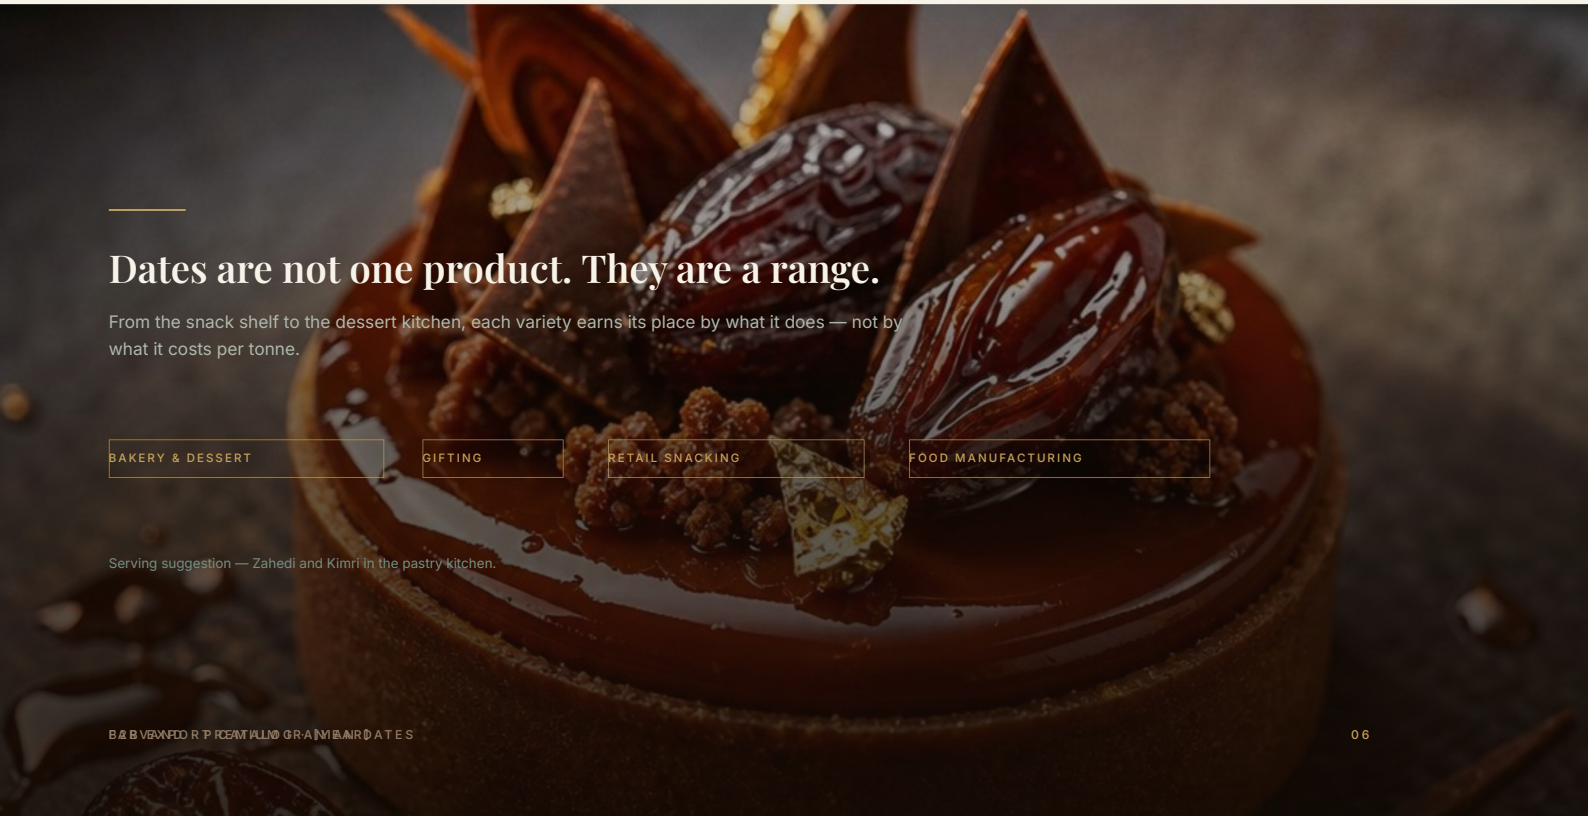

SOFT

HARVEST REGION
Bam
Kerman

Small, dark and intensely sweet, with a thin skin and a dense, uniform size. Kimri is the value pack of the range and the easiest to grade consistently.

Mid-size amber fruit with a delicate, tender skin and a clean, mild sweetness.

Retail trays, bakery and dessert supply

Najafi
SOFT

SARAVAN & BAM · SISTAN / KERMAN

Round, very dark and soft. A traditional cultivar with a loyal following at home and abroad.

Retail, traditional food processing

Lasht
SEMI-DRY

DASHTESTAN · FARS

Brown, wrinkled and firm — the workhorse of Iranian cooking and industrial processing.

Bulk shipments, industrial processing, cooking

Morki
SEMI-DRY

KAZERUN & DASHTESTAN · FARS

Light brown and moderately dry, with a firm bite that holds well in a mixed gift box.

Gift boxes, retail, catering and hospitality

Piarom
SEMI-DRY

HARVEST REGION
Hajiabad
Hormozgan

Small, dark, dry and chewy — the date most often described as the chocolate date.

Known in export markets as the chocolate date — dark, chewy and lower in moisture than the soft varieties.

Harani
SOFT

HARVEST REGION
Jahrom
Fars

Soft, amber and very sweet. A premium soft date sold in smaller, higher-value packs.

A softer, sweeter table date that sells best in smaller packs aimed at gifting and hospitality.

Deglet en-Nour
SEMI-DRY · ABADAN & KHORRAMSHAHR, KHUZESTAN

Pale amber with a mild, honeyed flavour and a light skin that eats easily.

Barhi
SOFT · SARAVAN, SISTAN & BALUCHESTAN

Round, soft and mild, with low fibre — a straightforward snacking date.

Availability of every variety depends on the harvest window — confirm before ordering.

08 — HOW WE WORK

Quality Assurance

Six checkpoints stand between the grove and the container. Each one is recorded, and each one can be shown to a buyer or an inspector.

01 Incoming inspection

Every incoming lot is checked for condition, colour and foreign matter before it enters the line. Findings are recorded per lot.

02 Sorting and grading

Fruit is sorted by size, colour and condition. The grade agreed for the order is separated and rejected fruit leaves the line.

03 Moisture and condition control

Moisture and condition are monitored where the variety requires it. Only lab-verified figures are quoted in the specification.

04 Controlled packing

Packing happens under controlled conditions, with pack format, net weight and count set by the purchase order.

05 Lot coding and traceability

Each carton carries a lot code that ties it back to its region, source, packing date and inspection record.

06 Pre-shipment check

A final check on count, weight, carton condition and labelling runs before the container is closed and sealed.

DOCUMENTS WE WORK WITH

The exact document set depends on the destination and the incoterm. The list below is the usual export pack — confirm the current requirement for your market with us.

- Commercial invoice
- Packing list
- Phytosanitary certificate
- Certificate of origin
- Fumigation / treatment certificate
- Transport documents per incoterm

09 — HOW IT ARRIVES

Packaging Options

Dates are fragile and moisture-sensitive. The pack format is chosen for the destination, the shelf and the retailer's planogram — not for the factory that filled it.

TARGET MARKETS

India | [MARKET 2] | [MARKET 3] | [MARKET 4] | [MARKET 5]

India is our priority market. We work with importers, wholesale distributors and retail chains — and we quote against the specification they already sell, not ours.

SHIPPING & DOCUMENTS

Every shipment is accompanied by the documents your customs broker asks for, issued before the container is sealed. [ADD: SHIPPING POLICY, INSURANCE, TEMPERATURE OR CARE REQUIREMENTS FOR SOFT DATES.]

HOW AN ORDER RUNS

01 Inquiry
Variety, pack, quantity and destination port.

02 Specification & quotation
Grade, count, moisture and price, in writing.

03 Production & packing
Sourcing, sorting, packing and lot coding.

04 Documents & shipment
Export papers issued, container sealed, vessel loaded.

Serving buyers in India and beyond.

Terms shown in brackets are agreed with the buyer before order confirmation. We do not publish figures we cannot honour — the quotation is the commitment, and it is written to be kept.
